Sana Jafari
Frontend Developer

I'm a 13-year-old programmer and have been developing for over a year in the technology domain. I have already learned HTML, CSS, Javascript, Bootstrap, Scss / Sass, and Git so far. Of course, I'm at the beginning of this interesting way.

SKILLS

HTML CSS

CSS 3 Sass

JavaScript

Bootstrap Git

LANGUAGES

Persian
Native or Bilingual Proficiency

English
Limited Working Proficiency

INTERESTS

Practicing English

Playing Setar

Playing Ping Pong

EDUCATION

I haven't gone to school

I haven't gone to school since I was 9 and I started to study at home. besides, I have begun to learn English, programming and playing Setar, an Iranian instrument, last year. Furthermore, I'm into programming, solving problems, and making things easier. I hope I can be an excellent front-end developer in the near future.
